

METHODIST CHURCH, BODIE, CALIFORNIA

The Methodist Church was built in the old mining camp of Bodie, California, in the year of 1879, and during the Boom days of Bodie, always supported a resident pastor. The church was partially restored in 1928, but is again showing the ravages of time. Bodie became a thriving Gold Camp after the discovery of Gold by Wm. S. Bodey in 1859. The Bodie Bluff yielded over \$80,000,000.00 during the life of its mines.
